

KIKFIA CUSTOM PORTABLE HOUSES

CUSTOM PORTABLE HOUSES

ADUs, tiny homes, expandable and modular buildings, designed around the way you live and work.

ABOUT KIKFIA

Factory-built houses, designed around you.

KIKFIA designs and supplies custom portable houses for homeowners, investors and businesses.

We pair proven factory-built steel structures with the layout, finishes and features each customer chooses. A backyard studio, a family ADU and a twenty-unit glamping site all start the same way: a conversation about your site, your budget and how the space will be used.

From there we select the right building system, adapt the floor plan and coordinate production, shipping and installation guidance until the house is standing on your land.

Factory-made

DELIVERY

U.S. & worldwide

MISSION

Better space, sooner.

Make quality, flexible living and working space faster and more affordable to own.

VISION

A home for every plan.

Adding a home, an office or a guest suite should be as simple as choosing the right design.

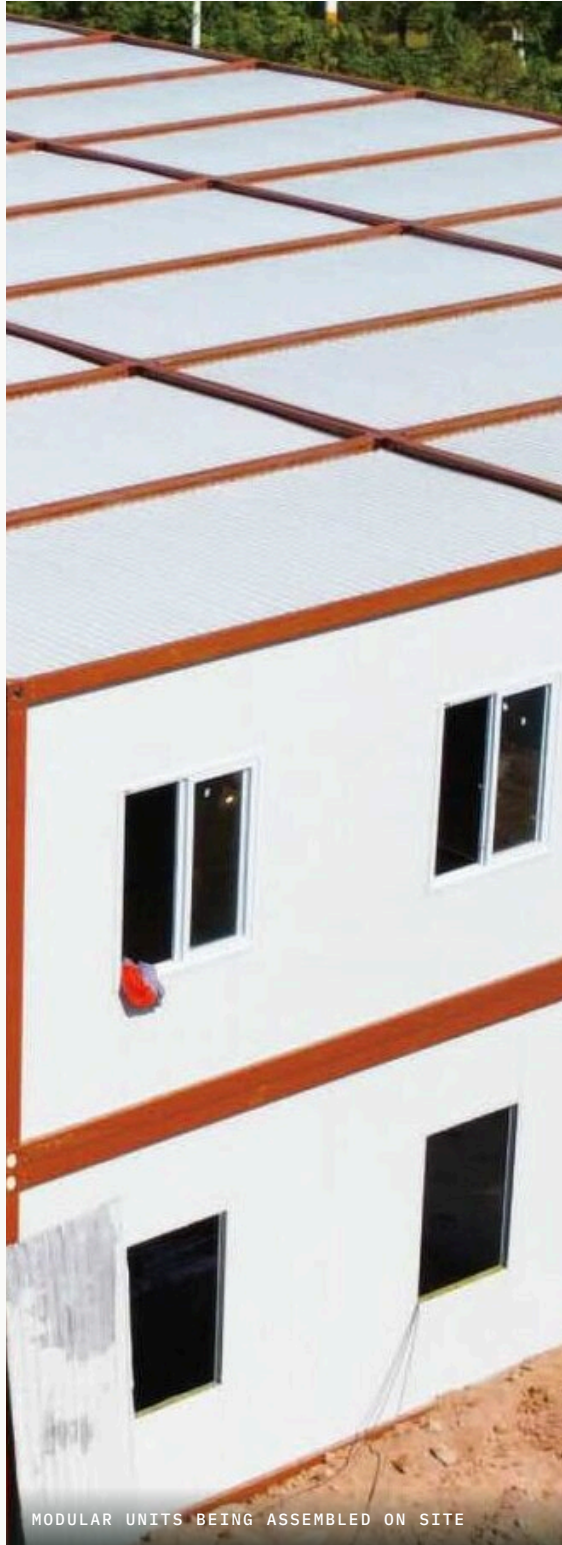

OUR COMMITMENT

Quality you can check.

Materials and options are confirmed in writing before production. No two projects are the same, so we never treat them that way.

WHY CHOOSE KIKFIA

Five reasons customers build with us.

MODULAR UNITS BEING ASSEMBLED ON SITE

Custom designs

Start from a proven model, then change what matters to you: layout, finishes, windows, colors and size. You approve the drawings before anything is built.

Quality manufacturing

Every house is built in an established factory on a galvanized steel frame, with materials and finishes confirmed in writing before production starts.

Flexible solutions

One home or fifty. Backyard, ranch, job site or resort. Expandable, folding and modular systems give you options for every site and budget.

International project support

We coordinate production, ocean freight and delivery to the United States and other markets, and keep you updated from order to arrival.

Customer-focused approach

One point of contact, clear written quotes and straight answers about what your site and your local rules allow.

FEATURED PRODUCT LINE

Expandable Houses

Ships as a compact unit and unfolds on site into a finished home almost three times its closed width.

BEDROOM

BATHROOM

ADU Houses

1-3 BEDROOMS • 400-800 SQ FT

A complete second home on your lot for family, a caregiver or long-term rental income.

KEY FEATURES

- Full kitchen and bathroom
- Insulated walls, roof and floor
- Wiring and plumbing ready for local hookup

BENEFITS

- A separate home without a traditional build
- Can create steady rental income
- Drawings and specs to support your permit

CUSTOMIZE

- Floor plan
- Cladding
- Windows
- Roof style
- Porch

Backyard Studios

120-400 SQ FT • SINGLE ROOM

A private room steps from the house for work, art, fitness or overnight guests.

KEY FEATURES

- Full-height glass doors and windows
- Insulated shell for year-round comfort
- Flat roof suited to solar panels

BENEFITS

- Keeps work separate from home life
- Adds space without remodeling
- Quick to install on a prepared base

CUSTOMIZE

- Wood-look cladding
- Glass layout
- Lighting
- Built-ins
- Deck

Tiny Houses

20 FT & 40 FT • 160-320 SQ FT

A full home in a small footprint, with smart layouts for sleeping, cooking and a complete bathroom.

KEY FEATURES

- Steel container-style shell
- Glass doors for natural light
- Compact kitchen and bathroom

BENEFITS

- Lower cost to own and run
- Easy to move to a new site
- Great for rentals and retreats

CUSTOMIZE

- Exterior color
- Glass walls
- Sleeping layout
- Deck & steps

Portable Cabins

RELOCATABLE • RAISED BASE

Rugged, insulated cabins for remote land, campgrounds and seasonal sites. Shown here in winter use.

KEY FEATURES

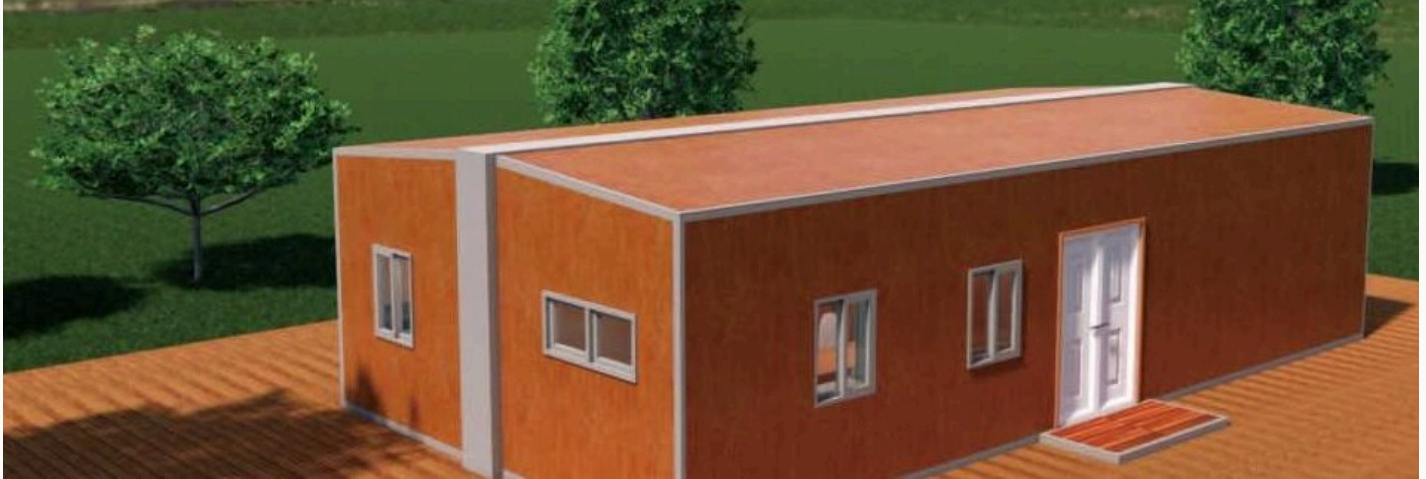

- Insulated composite shell
- Large double-glazed windows
- Raised base on adjustable supports

BENEFITS

- Comfortable in hot and cold seasons
- Move it when your plans change
- Minimal site preparation

CUSTOMIZE

- Window layout
- Bathroom
- Kitchenette
- Heating & A/C
- Color

Folding Houses

9'11" x 19'6" MODULE • FLAT-PACKED

Folds flat for shipping and opens on site. The fastest, most economical way to add space.

KEY FEATURES

- Galvanized steel frame, bolted connections
- 2-3 in insulated sandwich panels
- Join side by side or stack up to 3 levels

BENEFITS

- Many units ship in one container
- Small units set up without a crane
- Reusable and relocatable

CUSTOMIZE

- Bath module
- Kitchen
- Partitions
- Doors & windows
- Color

Storage Solutions

10 FT • 20 FT • 40 FT

Secure, weather-resistant space for equipment, inventory and tools, placed exactly where you need it.

KEY FEATURES

- Steel frame and lockable steel door
- Insulated panels protect contents
- Optional security window grilles

BENEFITS

- Keeps property dry and secure
- No foundation work for most sites
- Add units as you grow

CUSTOMIZE

- Shelving
- Lighting & outlets
- Ventilation
- Door position

Modular Houses

1-2 STORIES • MULTIPLE MODULES

Factory-built modules joined on site into larger one-and two-story homes.

KEY FEATURES

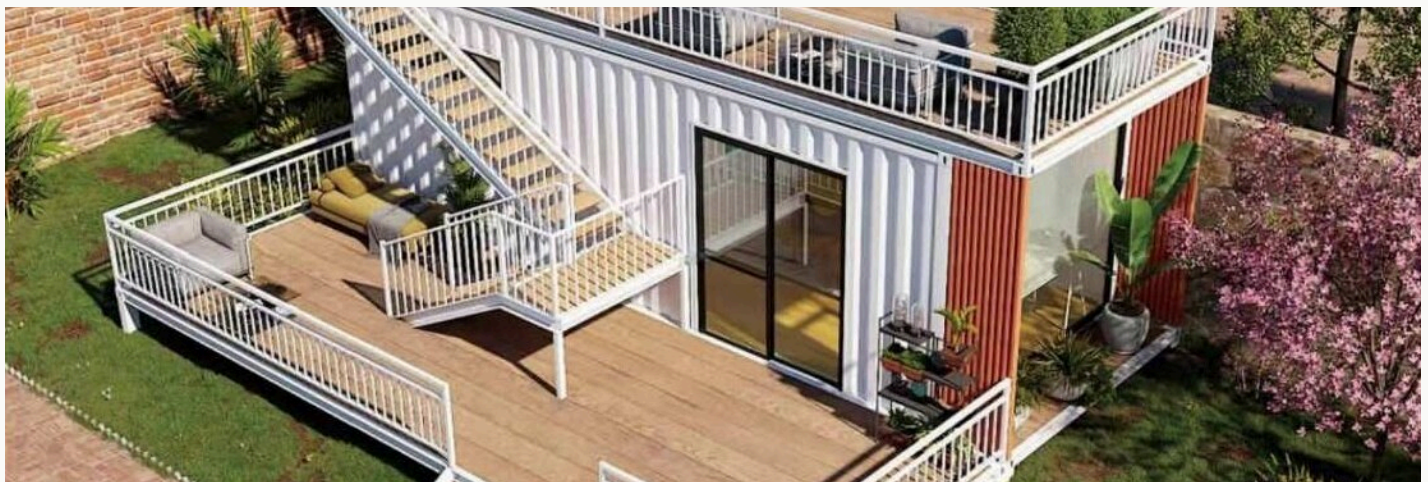

- Stackable steel modules
- Open-plan or multi-bedroom layouts
- Exterior stairs and balconies

BENEFITS

- Factory quality control
- More predictable cost and schedule
- Add modules as needs grow

CUSTOMIZE

- Module count
- Floor plan
- Facade
- Balconies
- Finishes

Guest Houses

GUEST SUITE • SHORT-TERM RENTAL

A private suite for visitors or a rental unit, with room to relax indoors and out.

KEY FEATURES

- Bedroom, bathroom and kitchenette
- Sliding glass doors
- Optional rooftop deck with stairs

BENEFITS

- Host family in comfort and privacy
- Earn income as a short-term rental
- Adds outdoor living space

CUSTOMIZE

- Rooftop deck
- Railings
- Accent cladding
- Lighting

Office Units

JOB SITES • SALES • HOME OFFICE

Ready-to-use offices for job sites, sales centers and growing teams.

KEY FEATURES

- Open-plan interior with glass entry
- Lighting and power outlets
- Insulated for year-round use

BENEFITS

- Up and running fast
- Moves when the project moves
- A professional face for clients

CUSTOMIZE

- Partitions
- Restroom
- A/C
- Desks & storage
- Your branding

Commercial Portable Buildings

HOSPITALITY • RETAIL • WORKFORCE

Hotels, glamping sites, shops and workforce housing, planned and delivered as one project.

KEY FEATURES

- Stackable, combinable units
- Stairs, walkways and balconies
- Bold colors or your brand finishes

BENEFITS

- Open in phases and keep growing
- Relocatable business assets
- One supplier for the whole site

CUSTOMIZE

- Site layout
- Unit mix
- Facade & signage
- Bathrooms
- Common areas

CUSTOMIZATION

Make it yours.

Every KIKFIA house can be changed in five ways. Combine them to fit your site, budget and style.

Floor plan

Open plan, one to three bedrooms, office layouts or a custom arrangement. Move walls, kitchens and bathrooms to suit how you live.

Bedrooms

Bathrooms

Kitchen position

Partitions

Exterior

Choose wall finishes, glazing and outdoor living features.

- Sandwich panel, metal or wood-look cladding
- Full glass fronts and large windows
- Verandas, canopies, decks and stairs
- Flat, pitched or rooftop-deck roofs

Interior

Select finishes for every room before production.

- Wall panels, including bamboo-wood finish
- SPC or vinyl plank flooring
- Kitchen cabinets and countertops
- Bathroom fixtures and lighting

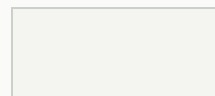

Size

Standard module lengths, combined side by side or stacked.

PROJECT GALLERY

Homes, resorts and retreats.

Gallery shows the product types KIKFIA supplies, including manufacturer installations and design renderings. Finishes, sizes and site work vary by project.

OUR PROCESS

From first call to move-in.

01

Consultation

We learn about your site, budget, timeline and how you plan to use the space.

YOU RECEIVE

Recommended models and a budget range

02

Design

We adapt the floor plan, finishes and options, then send drawings for your approval.

YOU RECEIVE

Approved drawings and a written quote

03

Manufacturing

Your house is built to the approved specification, with progress updates and a check of finishes before it ships.

YOU RECEIVE

Production updates and a pre-shipment check

04

Delivery

We arrange packing, freight and delivery to your site or the nearest port.

YOU RECEIVE

Shipping schedule and documents

05

Installation support

Installation guides and direct support while your local crew sets the house and connects utilities.

YOU RECEIVE

Installation guide, drawings and ongoing help

WHY WORK WITH KIKFIA

One partner from design to delivery.

Clear pricing

Itemized quotes that list the model, every option, shipping and what is not included.

Straight answers

We tell you what fits your site, budget and local rules, even when that means a smaller order.

Support after delivery

Installation guidance, documents and help finding local contractors for foundations and hookups.

COMMITMENT TO QUALITY

Galvanized steel structure

Corrosion-resistant frames on every house.

Everything confirmed in writing

Materials, sizes, finishes and options before production.

Production updates

Photos and progress reports while your house is built.

Pre-shipment check

Finishes and fittings reviewed before the house ships.

Drawings and guides included

Documentation for your installer and permit office.

CUSTOMER SATISFACTION

Your project is our reference.

We listen first, recommend honestly and stay in touch after your house is installed.

- ☐ One dedicated point of contact
- ☐ Fast, clear communication at every step
- ☐ Help with questions long after delivery

Let's plan your house.

Tell us where it is going and how you will use it. We will recommend a model, share layout options and send a written quote.
