

KIKFIA

CUSTOM PORTABLE HOUSES

Custom Portable Housing Solutions. Homes, offices, hospitality and modular buildings, designed around your project.

RESIDENTIAL COMMERCIAL HOSPITALITY INDUSTRIAL & STORAGE INSTITUTIONAL

ABOUT KIKFIA

Factory-built houses, designed around you.

KIKFIA is a portable housing and modular building company serving homeowners, investors, businesses and institutions.

We combine proven factory-built steel structures with the layout, finishes and features each customer needs. A backyard studio, a family ADU, a resort or a staff camp all start the same way: a conversation about your site, your budget and how the space will be used.

From there we choose the right building system, adapt the design and manage production, shipping and installation support until your building is standing on site.

PROJECT SIZE

1 unit to full sites

STRUCTURE

Galvanized steel

BUILD

Factory-made

DELIVERY

U.S. & worldwide

MISSION

Better space, sooner.

Make quality living and working space faster and more affordable to own.

VISION

A building for every plan.

Adding a home, an office or a whole site should be as simple as choosing the right design.

QUALITY

Checked in writing.

Materials, sizes and finishes are confirmed before production starts.

CUSTOMIZATION

Built your way.

Every project is adapted to the customer's site, use and style.

WHY CHOOSE KIKFIA

Six reasons customers build with us.

✓ Custom Designs

Start from a proven model and change what matters: layout, finishes, windows, colors and size.

✓ Quality Manufacturing

Galvanized steel frames and factory production, with specs confirmed in writing.

✓ Modern Housing Solutions

Clean modern designs with large glass, quality finishes and efficient layouts.

✓ Flexible Solutions

One unit or a full site. Expandable, folding and modular systems for every budget.

✓ Professional Support

Drawings, shipping coordination and installation guidance from start to finish.

✓ Customer-Focused Approach

One point of contact, clear written quotes and straight answers.

OUR SOLUTIONS

One partner for every project.

LIVING

KITCHEN

BEDROOM

BATHROOM

EXPANDABLE MODEL RANGE

Eight ways to start.

Popular expandable designs customers start from. Every one can be resized, re-planned and refinished.

20 FT

Glass Front

Floor-to-ceiling glass on the front and side for maximum daylight.

20 FT

Porch House

Covered roof canopy with a front porch, railings and steps.

20 FT

Woodgrain

Warm woodgrain wall panels with white trim and a sliding glass door.

40 FT

Family Veranda

Wide covered veranda and room for up to three bedrooms.

20 FT

Deck Edition

Wood-look cladding, glass entry and a raised deck with steps.

20 FT

Sunroom

Black aluminum frames with glass walls and awning windows.

20 FT

Heavy Duty

Extra corrugated steel outer skin for tough, exposed sites.

FLAT-ROOF MODELS

Two-Story

Flat-roof units stacked two levels high with a balcony and stairs.

Mix features across models: take the porch from one, the glass from another and the layout you need.

20 ft

40 ft

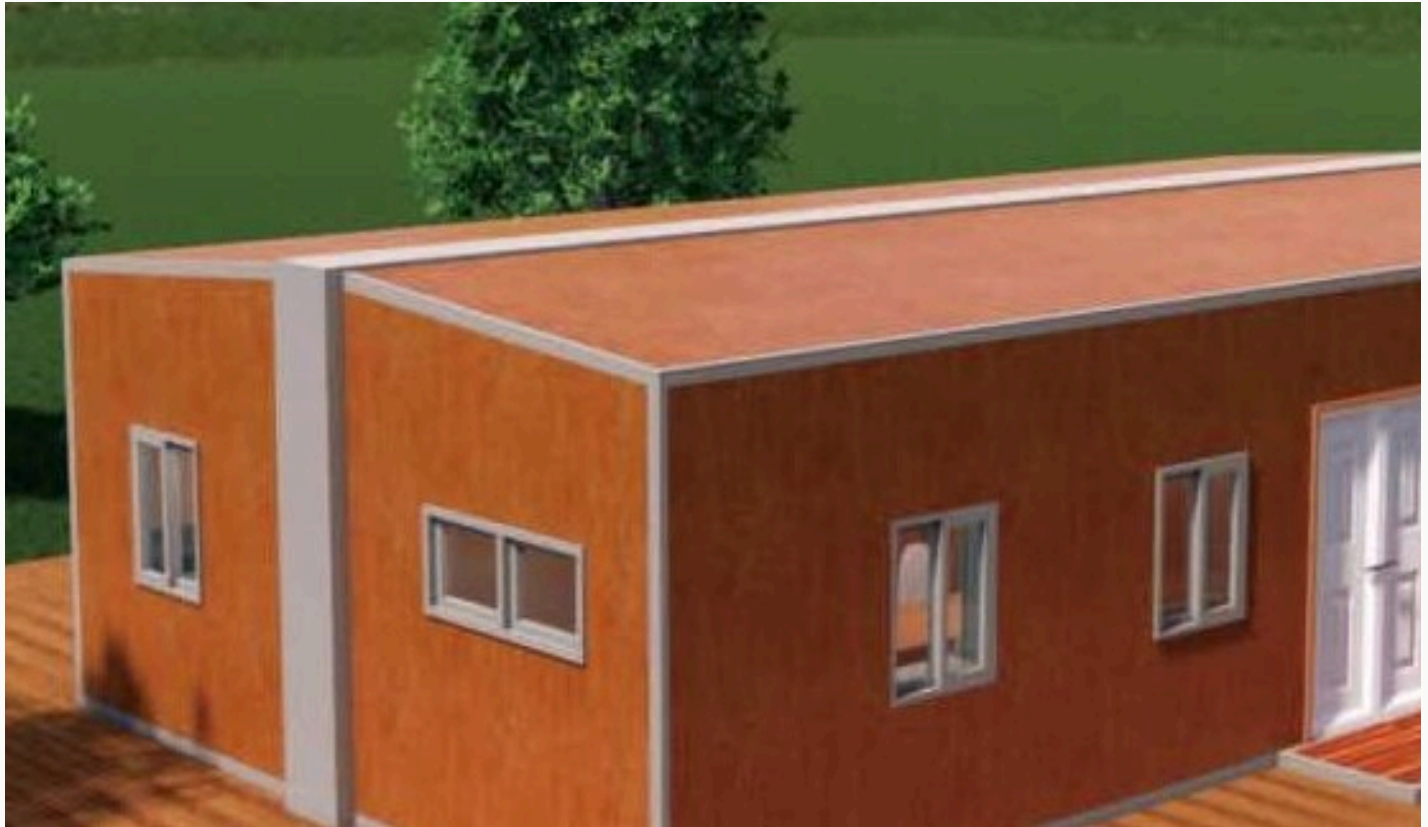

Stackable

Custom layout

RESIDENTIAL • SITE

Folding Houses

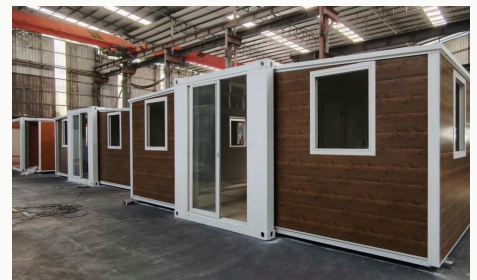

Folds flat for shipping and opens on site. The fastest, most economical way to add space.

CUSTOMIZATION

Make it yours.

Every KIKFIA building can be changed in eight ways. Combine them to fit your site, budget and style.

Floor Plans

Open plan or one to three bedrooms, arranged around how you live.

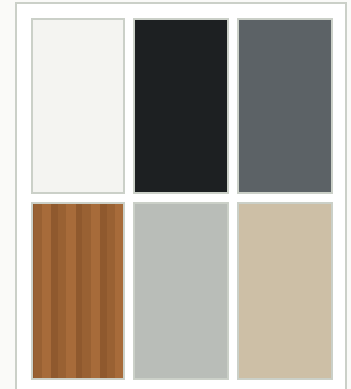

Interior Layout

Move walls, kitchens and bathrooms. Add storage and built-ins.

Exterior Design

Verandas, canopies, decks, stairs and roof styles.

Colors

Frame and wall colors from white and black to woodgrain and sand.

Windows

Sliding, awning or floor-to-ceiling glass, single or double glazed.

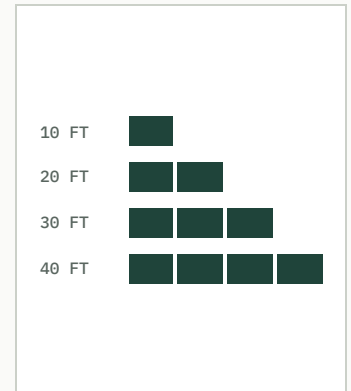

Doors

Steel security, glass sliding or hinged aluminum doors.

Materials

Choose wall panels, cladding, flooring and countertops.

Sizes

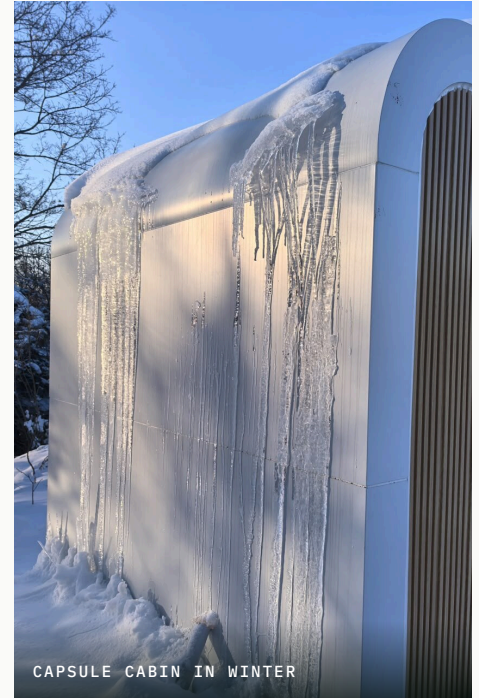

Standard 10–40 ft modules, combined side by side or stacked.

Project-based solutions

Have drawings or a site plan already? Send them and we will adapt our building systems to your design.

PROJECT GALLERY

Homes, camps, offices and more.

Residential

Homes, villas and cabins

Commercial

Offices, shops and halls

Hospitality

Resorts and hotel units

Institutional

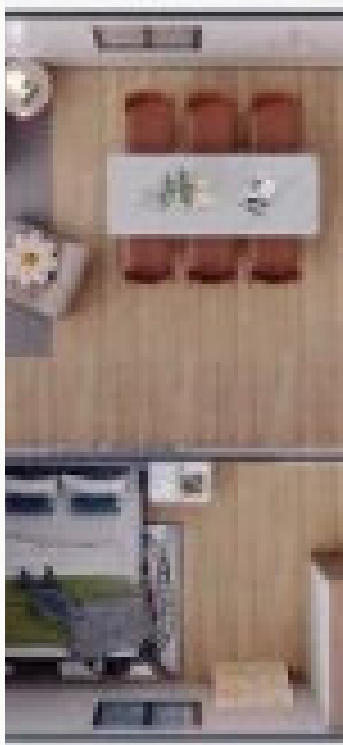

Schools, clinics, camps

Projects shown include buildings delivered with KIKFIA's manufacturing partners and design renderings. Finishes, sizes and site work vary by project.

WHY CUSTOMERS CHOOSE KIKFIA

One partner from design to delivery.

Reliability

We do what we quote, on the schedule we agree, and keep you informed at every step.

Customization

Your layout, finishes, colors and size. Every project is adapted to the customer.

Quality

Galvanized steel structures, quality finishes and a check before every shipment.

Transparency

Itemized quotes listing the model, options, shipping and what is not included.

Long-Term Support

Documents, installation guidance and help with questions long after delivery.

Small or large

One studio or a 100-unit site, you get the same care and one point of contact.

COMMITMENT TO QUALITY

- ☒ **Galvanized steel structure**
Corrosion-resistant frames on every building.
- ☒ **Everything confirmed in writing**
Materials, sizes, finishes and options before production.
- ☒ **Production updates**
Photos and progress reports while your building is made.
- ☒ **Pre-shipment check**
Finishes and fittings reviewed before shipping.

Let's plan your house.

Tell us where it is going and how you will use it. We will recommend a model, share layout options and send a written quote.
